

At Maurice Ward we understand that our biggest asset is our people. We have continuous training process in place to ensure that people are constantly learning and developing.

We have an excellent quality and delivery record with our customers and this is driven by the dedication of our employees. Some of our specialist functions within the plant include the following

- **Process engineers (Injection Moulding).**
- **Process Engineers (finishing).**
- **Paint specialists.**
- **Moulding Technicians.**
- **Sales Engineers.**
- **Project Engineers**

Some of our key management team have over 25 years experience in plastic processing and finishing.
