

**24 owned locations across Europe.**

MW Manufacturing has its headquarters in Most, Czech Rep. Most is approximately 1 hour North West of Prague and under one hour from the Czech / German border.

Most comprises 34,000 sq meters of manufacturing space. Housed within this facility are injection moulding machines (60 tons to 1750 tons), spray painting equipment, laser and tampo printing, warehousing and office space.

Currently employing approx 250 people, Maurice Ward Manufacturing operates a 24 hour a day / 7 days a week facility. This gives us the possibility to a) obtain maximum utilization of our machines, b) it provides the opportunity to offer maximum flexibility to respond to customer requirements and c) we always have someone available to answer customer queries.

With easy access to Prague and all the main routes covering both The Czech Rep and Europe as a whole we are ideally placed as a manufacturing centre.
